

PROFILE

I am a young adult that is driven by other life and culture experiences.

Essentially, I am enthusiastic with the appliance of Formal Methods in computing.

PERSONALITY

- Enthusiastic and Adaptable.
- Honest and Responsible.

Find more in my [portfolio](#).

SKILLS

Specification and Modelling

Software Design and Verification

Languages and Grammars

Back-End Development

Front-End Development

PROGRAMMING

WORK EXPERIENCE

Internship HydraIT 2022

- Microsoft's ERP Business Central.
- Consulting and Implementation.

Researcher INESCTEC 2022

- Hyperproperties and Model-Checking.
- Correctness over distributed systems.

Software Architect Bosch 2023

- Part of an engineering team in Braga.

EDUCATION HISTORY

Software Engineering Universidade do Minho 2017-2022

OS and Distribution 2019-2020

- Linux and System Calls.
- Parallel computing and Memory handling.

Skills: C, Java, Linux

Computation with effects 2019-2021

- Algorithmic structures and Monads.
- Lambda calculus and reasoning.

Skills: Haskell, C

Application Development 2020-2022

- Mobile and Web Development.
- Front-End and Back-End.

Skills: JavaScript, C#, Python, MongoDB, PostgreSQL

svROS - Thesis 2021-2022

- Python tool deployed with several functionalities.
- Study of Hyperproperties in ROS-based systems.
- Security and Privacy as properties.

Skills: Alloy, Python, Distributed Systems, ROS, Security

ACTIVITIES

- I enjoy reading about Computation Theory (from Logic to AI) and Philosophy (i.e. Simone de Beauvoir).
- I also like exercising (sports and running) and taking self-reflecting walks.
